

The Alternative Song Title Quiz

This quiz is quite simple; all you have to do is guess the song title from the alternative description given. You can get a clue by revealing the artist if you are really stuck. For example, 'definitive not old individuals' is The (definitive) Young (not old) Ones (individuals). If you have any suggestions for other 'alternative' titles, you should follow these guidelines:

The song must be a well known single that charted, so no album tracks or b sides.

The alternative title should cover all the words in the song title in the correct order.

The alternative title should not contain any of the words in the original title, but the odd 'of' or 'I' is only allowed as a last resort.

The song title should only contain words and no abbreviations or single letter substitutes (so no 2U).
